

PIDDINGTON'S FACEBOOK PAGES

Piddington currently has three Facebook pages, each with a different function.

Piddington, Oxfordshire (<https://www.facebook.com/piddingtonoxfordshire/>)

The public page, which was the original village Facebook page. It's open to anyone to view and post, so it's good for advertising village events for which we'd like a wider audience, telling the world about any news we want to publicise and allowing local businesses to advertise their services to the village. It's not good for sharing personal information and/or recommendations.

Piddington Community Group (<https://www.facebook.com/groups/675472503229717/>)

A private group, only available to people who have a close connection to Piddington, past or present. You are required to satisfactorily answer two membership questions before you can be accepted as a member. Only members can see and post content. It's good for sharing/discussing anything relating to Piddington, asking for recommendations for local tradespeople and services and advertising small village events that aren't really intended for the public beyond friends and family of villagers. It's become a great place for people to share some wonderful vintage photographs of old Piddington.

Piddington Coronavirus Support Network (<https://www.facebook.com/groups/3120544361311262/>)

Another private group, set up at the start of the pandemic alongside the village WhatsApp Support Group. It's for people to share important practical information as well as sources of help, amusement, solace and comfort with other villagers.
